OVERHERE

Victory in Europe is ours. After more than five and a half years of the bitterest and bloodiest fighting that this continent has ever known, the armed might of Germany, the Wehrmacht and the Nazi party has been defeated—finally and utterly.

Today will be treated officially as VE-Day, it was officially announced last night. There will be broadcasts from the chiefs of state of the Big Three this afternoon at 3 PM, according to Reuter's. King George VI is expected to broadcast to the British and Commonwealth peoples at 9 PM.

As the entire world waited anxiously all day yesterday for the VE-Day proclamation, there were reports, unconfirmed officially by SHAEF, that the Germans had signed an unconditional surrender agreement at 2:41 AM yesterday.

While SHAEF declined to confirm the report of unconditional surrender, the Associated Press carried a report from Rheims, France, where General Dwight D. Eisenhower's headquarters is located, giving details of the signing of the surrender documents.

According to this report, Nazi Germany surrendered unconditionally to the United States, Britain and Russia. The signing took place in the red schoolhouse that has been SHAEF headquarters. General Eisenhower was not present at the signing but immediately afterward met the German delegates.

The report of the signing of the surrender documents at Rheims, however, spread throughout the United Nations, and everywhere there were spontaneous celebrations. In New York ticker tape and torn telephone books were flung from skyscraper windows; traffic stopped on Times Square. In Washington news reporters crowded the White House where President Truman was conferring with high military and diplomatic aides.

In London where there was an air of great expectancy, loudspeakers were set (Continued on page 2)]

War Spawned Deadly Techniques; Cost In Lives And Dollars Tremendous.

Before the United Nations could destroy Hitler's armies, they first had to reach them, and reach them the hard way—invasion from the sea, a method perfected in this war. Each of the major European campaigns, except those on the Russian fronts, was preceded by an amphibious invasion. The silhouetted troops above are typical of those who came out of the dawn to invade Africa, Sieily, Italy and France.

Secret Battles, Underground Warfare, Air Power Helped To Stop Hitler's Struggle For World Conquest

Germany's dream of world conquest has come to a shattering end with the crushing defeat of the Reich which Adolf Hitler once boasted would endure a thousand years. Ended now is the European phase of the second great war of the century, a war which is estimated to have cost one trillion dollars and the lives of more than 19,900,000 men.

Germany's collapse had long been foreshadowed. Events such as the overthrow of Benito Mussolini nearly two years ago, the gradual retreat of German armies in Italy, success of the two

French invasions, the unrelent ing Russian ndvances across Poland and eastern Germanyall had suggested an approach-ing debacle. With surrender last Dec. 30 of Hungary, last of his five European allies, Hitler had been left alone against the might of the United Nations.

When casualty figures are com-pleted, the war may turn out to be Europe's most deadly and most devastating.

At the start, it looked to the

At the start, it looked to the world, grossly underrating German preparations, like the gamble of a mad adventurer. It turned out that the Allies anatched victory only after several hairbreadth escapes from defeat.

Hitler opened it in 1939 with ain-ister showmanship—razzle-dazzle of propaganda, secret weapons, para-troops, fifth columns, bombing ar-madas. Before his defeat, merged with the Asiatic war it had become a grim affair fought on all oceans

a grim affair fought on all oceans and continents.

"In this war," Hitler had threatened "there will be no victors and losers, but merely survivors and annihilated." Accordingly, he set a pace for ruthlessness and cruelty unprecedented in the history of wars.

With smug concelt, he declared. "I am putting on the uniform (the field gray of the German army), and I shall take it off only in victory or death."

Hitler planned a blitzkrieg-lightning war—and probably neves expected that England and France would do more then wage a token.

Great Allied Campaigns Brought Defeat To Nazis

Mighty decisive campaigns in the air, at sea and on land over a period of nearly six years preceded Germany's collapse.

In the air—

Beginning Aug. 24, 1946, Britain's RAF battled phalanxes of Nazi planes for 84 days over the British homeland. Although far outnumbered, the RAF downed 2,375 enemy planes to a loss of 600, and smashed Hitler's fleet assembled for invasion of England. The Battle for Britain was an aerial Waterloo for Hitler.

It was a war of supplies, and during 1942 and most of 1943 British and American navies fought U-boats all the way from the American east coast to the coasts of England, Africa and the Russian port of Murmansk.

On the land-On the land—
The war turned at El Alamein on Oct. 23, 1942, and Rommel's Afrika Korps found itself backing away from Suez across Libya and Tunisia. Chased by Montgomery's 8th Army, it ran into Elsenhower's American forces. It made a North African exit in May, 1943.
Across Sicily and up Italy, the Allies chased the foe for some of the bitterest battles of the war. They knocked out Italy on Sept. 3, 1943, liberated Naples, Rome and Florence, pushed on toward the Reconcer. Pass.

Brenner Pass.

In the east, the war turned at Stalingrad on Nov. 22, 1942, when the Russians began a two-and-a-half month battle which annihilated the Nazi 6th Army and started the Russian advance to Berlin.

In the west, the war turned on June 6, 1944, when the Allies landed in Normandy and rushed across France to join a southern invasion force which landed on Aug. 15. By September, the war was at Germany's door—and the end was a matter of months. It took only one more big push to cross the Rhine into Inner Germany.

Pinland signed a truce on Sept. 19 of that year; and Hungary asked for peace on Dec. 30.

Since the remaining Axis partners, Japan and Thailand, were overly busy in the Pacific, Hitler had fought alone in Europe since the Hungarian collapse.

Rivaires were many and victous. The best known, of course, was be-tween Goering and Goebbels, but the Goebbels-Rosenberg feud was no love feast, either. Goebbels and Schacht were enem'es. There were, too, the Goering-Ribbentrop and Goeobels - Himmler combinations. And everyone disliked Rosenberg, the Nazi "philosopher."

Let's have a look at Hitler's men,

Fat Man

Gusty Hermann Wilhelm Goering was born in Bavaria in 1893 of Prussian parents. He came of a good family—his father was Governor General of German Southwest Africa—and his schooling was good,

Africa—and his schooling was good, but this only served to emphasize his bad taste.

Weighing 300 pounds or more, Goering was known for his lion cubs gargantuan appetites, brilliant uniforms, jewelry and rouge. His bellowing laughter gave the impression of a jolly, good-natured goul, different in every way from the eadists who made up fixters atrale But that was deception. It was Goering who preferred guns to butter it was he who built up the Luftwaffe to be the spearhead of Germany's assault on Europe. In Poland, Holland and England he personally directed the served at first as a party organizer. land he personally directed the bombing of non-military objectives, and it was by his orders that lowflying planes strafed French roads packed with fleeling men, women

and children.

It was Goering who was credited with setting fire to the Reichstag as an excuse for the days and nights of terror in 1933, and it was he who brought the headman's axe from the Middle Ages for the execution of Nasi victims. By his own boast, he "widened" his instructions during the bloody 1934 purse, assassmating men guilty of no other crime than standing in his way.

Under his regime as general of police (before this office was transferred to Heinrich Himmler), thousands of Jews and disloyal "Aryans" were sterilized, hounded out of and children

In his position as overlord of all industry, Goering also thieved on an unparalleled scale. His personal palace became a virtual museum filled with art treasures looted from captured lands. His huge Karinhall, built on a confiscated estate, was another storehouse for his loot. Everything in it was stolen.

was stolen.

At the time of his second marriage in 1935, not only did the state pay for his spectacular wedding, but Goering, a shrewd man with a Reichsmark, netted a handsome profit from the sale of seats in the cathedral

oathedral. His fortune in recent years was estimated at 10,000,000 dollars, and estimated at 10,000,000 dollars, and a large part of it was reported to be carefully stowed away in countries safer than Germany. Cynically enough, he planted this money through the medium of a Rumantan Jew. In fact his anti-Semitism was entirely insupport. Asked once was entirely insincere. Asked once why he appointed to his staff a man with Jewish blood. Goering brusquely replied, "It is I who decides who is a Jew."

Goering shot down 23 Ailied planes in World War I and, as a squedron leader at the end of the war refused to surrender his planes. They had to be destroyed. A brush at a Socialist gathering left him foaming with rage and a passionate

His supreme achievement was making a national "hero" out of Horst Wessel, a pimp and hoodium. The "Horst Wessel" became Nazi Germany's national authem.

Indispensable Hess

The story of Rudolf Hess was one of the war's most fascinating. Although definitely not brilliant, he seemed nevertheless to be a steady, sober character.

Born in Alexandria, Egypt, he had his eye on the Mediterranean s a likely apot for Nazi penetration. He was the Fuehrer's personal

He was the Fuehrer's personal deputy and as such the actual dey-to-day leader of the Nazi party. He had no ambitions other than to be Hitler's deputy. A flying officer in World War I, he was the first "gentleman" to enter the Nazi party, and he became Hitler's personal zecretary in sonal secretary in

honest devotion to his leader. He had few original thoughts of his own, usually parroting what he'd

dreds of jokes. One story was that he donned an admiral's uniform to take a bath, wearing rubber duplicates of all his medals. Once, while visiting a steel mill, he was hotsted to the ceiling by an electro-magnet which attracted his medals. Another time, the story has it, Hitler dozed off during a performance of "Lohengrin." Der Fuehrer's eye opened just as a knight in shining armor took the stage.

"Hermann!" Hitler shricked.
"Now you are going too far!"

The classic story, though, concerned his cruelty: Goering arrived late at a Berlin luncheon where he was to meet a certain Englishman. He apologized for his tardiness with the explanation that he'd been out It was Hess who made one of the biggest news stories of the war. The then No. 3 Nazi flew a Messer-schmitt to Scotland and baled out. His mission, it turned out, was to propose an anti-Russ'an peace with Britain. The British promptly clinked him as a prisoner of war.

'Gentle' Heinrich

Heinrich Himmler wore pince-nez Beinrich Himmier wore pince-ness glasses and looked like a gentle schoolmaster, but that's where the similarity shruptly stopped. As commender of the entire German police including the dreaded Gestape, he was Nazidom's most sinister personality.

Born in 1900 at Munich, Himmler belonged, like so many of his col-jeagues, to a nationalist gang of guerrilla fighters. Like them, he participated in the 1923 putsch, His SS troops were the pick of the pick, Converted quickly to Nazism, he served at first as a party organizer. But with his quick tongue, his soaring words, he eventually became—next to the Fuehrer humself—the most valuable orator in the movement. He founded the great rabble-rousing newspaper Der Angriff and, by 1930, he headed the Berlin Nazi machine—next to Munich's the chief stronghold of the Hitlerites. of decipline and with an ingrained brutality that was encouraged. No SS man could marry until Himm-ler's eugenica bureau certified him and his bride-to-be as irreproachably pure Aryan.

Between them, the Gestapo and the SS were unbeatable. The police arrested the victims and the SS "guarded" them in the concentra-tion camps. Himmler could arrest, "w, guard and execute, which he often did. He was reputed to have a dossier on every big-wig in the party and he could bring the heat on anybody who spoke out of

Nazis Will Be Tried For Their Atrocities

President Roosevelt, Prime Minister Churchill and Premier Joseph Stahn announced last October, at the end of the confer-ence of their foreign ministers at Moscow, that German officers, soldiers and Nazi leaders re-sponsible for atrocities through-out Europe would be tried in the countries they had outraged with their "monstrous crimes."

The joint declaration also pro-vided for punishment, "by the joint decision of the governments of the Allies," of those whose crimes cannot be measured in geographical terms. Thus this provision takes care of Hitler, Goer-ing, Goebbels, Himmler and all of their satellites to whom the blood bath of the last five years can be

Joachim von Ribbentrop was virtually unknown in the early 1930s, but by 1939, as Germany's Foreign Minister, he had a tre-mendous influence on Hitler.

1940 Marked Darkest Period For Allies

The Belgians' surrender on May 28, 1940, left the British Expeditionary Force stranded in Flanders, forcing the British to leave the Continent and abandon tremendous stores of equipment. The heroic evacuation of 300,000 troops from Dunkirk was one of the epics of the war. While the vastly outnumbered RAF prevented the Luftwaffe from cutting these vulnerable, disarmed troops to ribbons, the men sweated out their transportation to England aboard every conceivable kind of vessel which could be mustered in that critical emergency—a curiously-assorted armada of 900 warships, skiffs, tugs and yachts.

These sorry-looking specimens of Nazi supermen were among the few left alive at Stalingrad, where the German 6th Army was wiped out in the historic Soviet counteroffensive which began Nov. 22, 1942, and never stopped rolling afterward.

Miraculously unharmed during the blitz of London, the twin spires of St. Paul's Cathedral still stand, the spiritual heart of England and the Empire. The Battle of Britain cost the lives of 50,000 Britans from August, 1949, until May, 1941, when the RAF won uncontested control of the air.

This Belgian mother and her youngsters, bewildered but unbowed after a brutally indiscriminate Luftwaffe raid wrecked their home in May, 1940, typify the fate of Europe's children—one of the greater tragedies of the war.

Gloating Nazi chieftains gave history a tail twisting on June 22, 1949, when they compelled representatives of a beaten France to accept their severe Armistice terms in a French railway car in the Complegne forest—the same one in which the 1918 Armistice was signed.

American landings in North Africa on Nov. 8, 1942, brought new pressure on the Afrika Korps, this time from the west. Here Yanks clean out snipers in Algiers soon after their landing.

It is conceded that Louis' solourn in the Army has not improved his boxing prowess, but once he goes back into training it will still take a pretty good fighter to lift his title. When he toured Italy he was about 20 pounds over his prewar fighting weight and it shouldn't be too hard for him to work back down. Joe will be 31 this month, so he can't be dismissed as a broken down old man. As fighters go, 31 isn't such a terrible old age and in the case of a fighter who has lived as cleanly as Louis, it probably wouldn't make any difference at all.
