

**What:** Organic Field School  
 Hands-on organic agricultural learning center (tours, classes, etc.)  
 Offers land, equipment, expertise to beginning organic farmers at a low price to help get them started

**Keywords:** Agricultural practices > Organic, Agricultural practices > Farming methods, Education

**When/Where:** 2007-2014 (now part of Gardens of Eagan programming)  
 Gardens of Eagan Organic Farm (Northfield, MN)

**Who:** No longer an independent non-profit, in April 2014 was folded into Gardens of Eagan programming by The Wedge Community Co-op board.  
 Intended audiences: organic farmers & the interested public

**Why:** provides "organic and ecologically based, practical education and research to farmers and [teaches] the benefits and values of ecological and organic farming systems to the public"

**How:** Based on practical aquisition and application of the knowledge they share. Provides a place to test the approaches for the individual to decide if they will use them in their farming / support them in their purchasing going foward.
