

Knowledge/Experience

What: The Northside Healthy Eating Project

Keywords: healthy food, food security, access, transportation, fast food
food deserts, food literacy, community organizing, food mobile

When/Where: 2/XX/2011

Who: CURA, the NorthPoint Health and Wellness Center
North side residents of Mnpls, Hennepin County policy makers, NorthPoint Health and Wellness supporters

Why: To investigate current food accessibility and insecurity in the Northside neighborhood & identify transportation-based solutions

How: Very useful because it proposes a series of solutions to eradicate food insecurity and the food desert in the North side. Credible because it assesses other programs across the country in its attempt to create solutions. Efficacy considered through case studies.

Type:
