

September 21, 1915.

Mr. A. T. Ruan,  
Disbursing Agent, Philippine Revenues,  
Bureau of Insular Affairs.  
Washington, D. C.

Dear Sir:

Your letter of the 13th inst. was duly received, and I returned the voucher covering fees of Jose Tiglao. He handed me a check for \$30, which I deposited with the Treasurer on his account. Contrary to my expectations Mr. Tiglao is rooming at the University. He will, therefore, pay the fees of a regular cadet as follows: \$5 surgeon, \$5 medicine and hospital, \$5 matriculation, \$5 athletic and lyceum, \$17.65 for uniforms, and \$43.50 for the first three months board, laundry, etc. In addition he is due \$5 for laboratory fee in Shop and \$10 laboratory fee in Chemistry. This makes a total of \$146.15, not including anything for books or personal expenses. The \$30 already paid and the \$70 covered by the voucher I am returning will give you a credit of \$100 on account, leaving \$46.15 to be paid. He tells me that he had money to purchase his books. I shall see him later about this and get one of the blank emergency orders properly filled out to send you to cover the cost of his books or any other incidental expenses that he may have had incident to his admission to the University. I do not know what he intends to do about money for his personal expenses, such as clothing other than uniforms, pocket money, etc.

I want to tell you at this time that Mr. Tiglao's rooming at the University is contrary to my advice. He is very dark, and there has always been a strong feeling among our students against
