

"So this is not just any archive and just any moment in the history of the archive." — Jacques Derrida

The 2nd-Annual Los Angeles Archives Bazaar

The Los Angeles Archives Bazaar features exhibits by 40 historical collections and archives—ranging from L.A.-area universities and public libraries to community-based organizations. Presented by L.A. as Subject—an association of archives and collections hosted by the USC Libraries—the research bazaar offers a wealth of resources to explore virtually any subject related to Los Angeles. Throughout the day, educational programs will cover family genealogy, historic preservation and other local-history topics. Browse collections, schedule research visits, and consult with experts to launch your own Los Angeles historical investigation.
